THE 10 TRADES INFRASTRUCTURE AUDIT

A Load-Bearing Operational Health Check for Multi-Venture Founders

Trades before finishes, always. A finished landing page on a venture with no qualification or delivery flow is a trap. Across every company, the same 10 trades must be present.

- ☐ **T1: Identity & Position**
  Who is this for, what problem is solved, why this over alternatives?
- ☐ **T2: Lead Capture**
  Surface where warm prospects express intent and enter your database.
- ☐ **T3: Nurture Cadence**
  Automated sequence warming leads from curiosity to transaction readiness.

CHAMBER 2: QUALIFICATION & CLOSE (T4-T5) / 10

- ☐ **T4: Qualification Filter**
  Filter separating good-fit from bad-fit prospects before calls.
- ☐ **T5: Conversion Motion**
  Repeatable proposal-to-close or checkout mechanism where cash moves.
- ☐ **T6: Delivery Engine**
  Fulfillment motion that onboard, executes, and handoffs cleanly.

CHAMBER 3: RETENTION & REFERRAL (T7-T8) / 10

- ☐ **T7: Retention & Expansion**
  Motion turning one-time buyers into recurring or higher-LTV accounts.
- ☐ **T8: Referral Flywheel**
  Systematic process turning happy clients into new qualified introductions.
- ☐ **T9: Financial Plumbing**
  Tax-ready bookkeeping, invoicing, owner pay, and reserve models.

CHAMBER 4: INSTITUTIONAL SHIELD (T10) / 10

- ☐ **T10.1: Legal Entities**
  Entity formation, operating agreements, and liability firewalls.
- ☐ **T10.2: Contract Rigor**
